## The New SmartPhone App

Launched by

222 North Sepulveda Boulevard, Suite 1780  
El Segundo, California 90245  
(310) 536-9876  
<http://advantagesci.com>

*Every trip has risks.*

*Sitting in the plane, holding your iPhone, thinking about your trip to Brazil...*

*"Hmmm. My phone is in "Airplane Mode" with no internet connection. I really wish I had read a bit more detailed information about traveling to Brazil, what I could do safely. But with no internet connection, I guess I can't do that, can I?"*

*"Wait a second!! I have the iTravelSafe® app on my iPhone. All of the data I need is on my phone now. I can read it all even with no internet or cellular connection! Wow, that is really cool! Oh my, look here! I better not go on that hiking trip near Brazil's border regions, I might get kidnapped. Oh no, my planned charitable journey to Rio's shanty town is too dangerous. I'll have to call it off. It's a good thing I had iTravelSafe® with me to tip me off to the danger!"*

iTravelSafe® gives an organization an app for its employees traveling outside the U.S. to use as a "self-briefing" travel tool. Read about hotel safety. Study up on tips about which business travelers need to be "savvy."

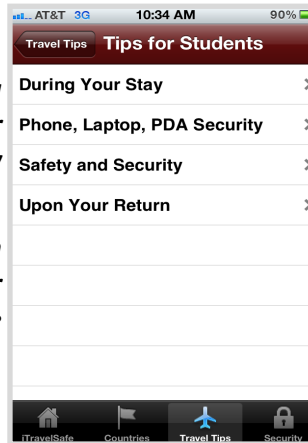

## iTravelSafe®

- Be better prepared for your destination
