## Securing Tomorrow Today!

### PROVEN SOLUTIONS

At Advantage SCI, we leverage a winning team to deliver proven solutions with strategic impact. Since 2000, Advantage SCI has delivered tailored, timely, and transformative intelligence, cyber, and security solutions to address our customers' most dynamic and demanding National Security challenges. Our customers include: Department of Homeland Security, Department of Treasury, U.S. Army, U.S. Air Force, Defense Threat Reduction Agency, Joint Chiefs of Staff, and other Federal agencies and private sector clients.

### WINNING TEAM

Our team of program and project managers are proven leaders and problem solvers with decades of subject matter expertise supporting the Federal Government, Department of Defense (DoD), and the private sector in the areas of Cyber Security and Insider Threat; Counterintelligence (CI) Services; Business Analytics; Operations Research; Research Tech Protection; Training Support; Overseas Linguist Support; Human Intelligence (HUMINT) policy, operations, and management; Security (Industrial, Physical, Personnel, and Cyber); Red Team/Blue Team Support (alternative analysis and vulnerability assessments); Technical Surveillance Countermeasures (TSCM); Logistics Support; Administration; Publications.

### Our Capabilities:

CI / Insider Threat / Cyber Security / Training / Programming  
Research & Technology Protection / Linguist Support  
Special Access Program Support / Multi-Disciplinary Security  
Briefing/Debriefing Travel Support / Intelligence Support

### STRATEGIC IMPACT

With Advantage SCI, our customers are:

- Enabling U.S. counter-terrorism and capacity building initiatives overseas
- Leveraging decades of CI operational and investigative experience to counter domestic and international threats to our Nation's most critical programs
- Executing CI analysis and cyber / insider threat detection and prevention programs for deterring, detecting, and mitigating insider threats, including the safeguarding of classified information from exploitation, compromise, or other unauthorized disclosure
- Supporting National counter-proliferation programs and priorities
- Monitoring the U.S. Global Nuclear Detection Architecture and implementing domestic nuclear detection efforts for a managed and coordinated response to radiological and nuclear threats
- Facilitating situational awareness through information sharing and analysis
- Providing niche support to DoD Special Access Programs focused on countering over-the-horizon threats
- Driving physical, personnel, cyber, and industrial security awareness and initiatives at state, local, and national levels
- Supported globally by Advantage SCI's team of expert TSCM technicians
- Executing complex missions in hostile environments supported by Advantage SCI CAT II and CAT III linguists
